(currently amended) A method of a lending institution funding a pool of loans, with one 1 or more insurers, the pool of loans having associated therewith a first rating or no rating, an aggregate amount and a first loss, the method comprising:

the lending institution assuming risk of the first loss by providing a first loss financial guaranty, the first loss being a percentage of the aggregate amount of the pool of loans;

the lending institution transferring the loans to an entity that secures insurance for the loans from the insurers, and transferring a risk of loss other than the first loss to the insurers, the entity having a second rating greater than the first rating-or no rating and securing proceeds based on the pool of loans and its second rating;

the proceeds in an amount greater than that which the lending institution could secure due to the second rating being greater than the first rating or no rating;

the lending institution receiving the proceeds from the entity in return for transferring the loans to the entity; and

the lending institution funding the loans using the proceeds;

maintaining an electronic database on a computer having memory; and

storing information about the loans in the database.

- 2. (previously presented) A method as recited by claim 1, wherein the lending institution comprises a lender and a reinsurer, and wherein the financial guaranty is reinsurance provided by the reinsurer, and wherein the pool of loans is a pool of loans of the lender.
- 3 (previously presented) A method as recited by claim 1, wherein the lending institution comprises a lender and a reinsurer, and wherein the financial guaranty is reinsurance provided by the reinsurer, and wherein the pool of loans is a pool of loans of a third party.
